TRANSFORMING CONTAINERS. CREATING POSSIBILITIES.

• UNIQUE. DISRUPTIVE. BUILT DIFFERENT.

Hi.

WELCOME TO CONTAINERS 254 LTD

We create unique and disruptive container spaces that challenge conventional construction and bring bold ideas to life.

At Containers 254, we transform shipping containers into functional, modern and thoughtfully designed spaces. From residential homes and commercial units to offices, shops, accommodation facilities and custom projects, we provide solutions tailored to each client’s vision, budget and intended use.

Our team manages the journey from consultation and design to fabrication, finishing, delivery and installation. Every project is approached with a focus on functionality, durability, quality workmanship and customer satisfaction. Whether you are building a home, expanding your business or creating an income-generating property, we are here to help bring your idea to life.

FOUNDER STATEMENT

Hello,

Containers 254 was founded with a clear purpose: to transform shipping containers into practical, modern and valuable spaces that respond to the changing needs of individuals, businesses and investors.

We believe a container is more than a steel structure. With thoughtful design, skilled workmanship and the right team, it can become a comfortable home, a productive office, a thriving business or a profitable investment.

Every project begins with understanding the client's vision. From consultation and design to fabrication, finishing and delivery, our goal is to provide solutions that are functional, durable and built with purpose.

As we continue to grow, we remain committed to innovation, quality workmanship and creating spaces that exceed expectations.

Thank you for trusting Containers 254 to bring your ideas to life.

Ali Wainaina

Founder & Chief Executive Officer

Containers 254 Ltd

**We are not simply
transforming
containers; we are
creating functional
spaces where people
can live, work, build
businesses and invest
in their future.**

Design Solutions

Countrywide

Project Delivery

20+

Skilled Professionals

We create customised solutions for residential, commercial, hospitality and institutional use. From container homes and offices to shops, stalls, Airbnbs and specialised structures, every project is developed around the client's needs, budget and intended use. Our team supports clients throughout the entire process, from consultation and design to fabrication, finishing, delivery and installation.

Our goal is to provide dependable container solutions that make it easier for individuals, businesses and investors to create quality spaces for living, working and income generation.

100% Customised Solutions

We combine practical design, skilled workmanship and professional project coordination to deliver spaces that are functional, durable and visually appealing.

Mission

To design and deliver innovative, durable and functional container spaces that meet the residential, commercial and investment needs of our clients.

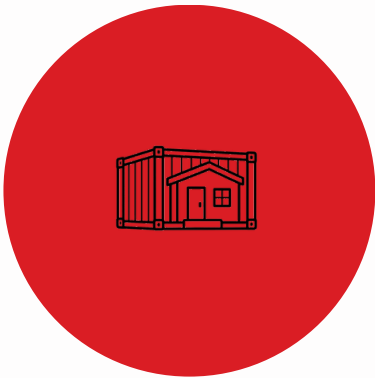

Vision

To become a leading container construction company in Kenya and beyond, recognised for innovation, quality workmanship and reliable project delivery.

AMBOSELI HOME

- Fabrication and custom modifications
- Electrical and plumbing installations
- Interior finishing and furnishing
- Painting, branding and exterior finishes
- Transport, delivery and site placement
- Decking, pergolas and landscaping works
- Repairs, maintenance and renovations

OUR PROJECT PROCESS

From Concept to Completion

Our structured project process ensures every container development is functional, durable and tailored to the client's needs.

1

Consultation & Needs Assessment
We begin by understanding your vision, intended use, preferred location, budget and project requirements.

2

Site Assessment
Where necessary, our team evaluates the site to determine accessibility, foundation requirements, utility connections and the most suitable positioning of the structure.

3

Design & Costing
Our in-house design team develops a customized layout, architectural concept and detailed quotation based on your preferred finishes and specifications.

4

Approvals & Project Planning
We guide clients through the required architectural and county approval processes while developing a clear fabrication and delivery schedule.

5

Container Selection & Fabrication
The appropriate container units are sourced and prepared before cutting, structural reinforcement, framing, partitioning and installation of doors and windows.

6

Insulation & Service Installation
We install thermal and acoustic insulation, electrical wiring, plumbing, ventilation and other essential services.

7

Interior & Exterior Finishing
The project is completed with wall and ceiling finishes, flooring, cabinetry, painting, sanitary fittings and other selected finishes.

8

Quality Inspection & Delivery
Every project undergoes a final quality inspection before transportation, installation and handover at the client's site.

From the initial consultation to final handover, our team maintains clear communication and professional project coordination throughout every stage.

MEET OUR TEAM

Behind every Containers254 project is a dedicated team of professionals committed to turning ideas into functional, high-quality spaces. From consultation and design to fabrication, project management and final delivery, our team works collaboratively to ensure every project meets the client’s vision, budget and expectations.

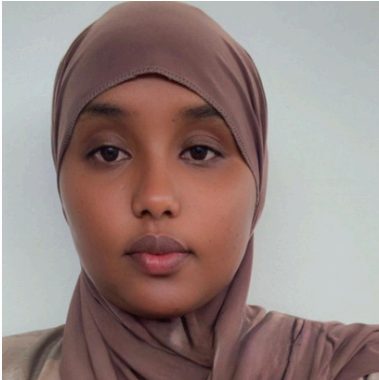

20+ SKILLED FIELD PROFESSIONALS

Our experienced fabrication and construction team includes welders, electricians, plumbers, painters, carpenters, technicians and site personnel. Their combined expertise allows us to deliver durable, functional and professionally finished container solutions across Kenya.

We believe successful projects are built through teamwork, clear communication and attention to detail. Every team member contributes their skills and experience to ensure projects are completed safely, efficiently and to the highest possible standards.

PROJECT PORTFOLIO

100%
OF OUR
PROJECTS
ARE CUSTOM-
BUILT

From compact container homes to multi-storey developments, our portfolio showcases the versatility of container construction. Each project is thoughtfully designed and built to meet the client's lifestyle, location and budget.

Every project begins with a client's vision. Our team transforms that vision into a functional, durable and beautifully finished space.

THE CLIFF SIDE MANOR

A bold two-storey container home that proves modern living can be spacious, elegant and built to last.

THE VISION

The client envisioned a unique family home that would maximise space while blending naturally with the surrounding landscape. The design combined multiple containers to create generous living spaces, balconies and outdoor relaxation areas.

THE RESULT

A striking two-storey residence featuring modern interiors, expansive windows, durable finishes and seamless indoor-outdoor living. Years later, Cliff Side Manor remains a testament to the strength and versatility of container architecture.

WHY INVESTORS CHOOSE CONTAINER DEVELOPMENTS

Faster Project Delivery

Reduced construction time may allow the property to become operational sooner.

Controlled Development Costs

Projects can be designed according to the available budget, required finishes and intended commercial use.

Scalable Investment

Investors can begin with one unit and add more units as demand and revenue grow.

Flexible Use

A container structure can be modified, relocated or repurposed as business needs change

OFF-GRID LIVING OPTIONS

Solar Power Systems

Installation of solar panels, inverters, batteries and energy-efficient lighting to support everyday electrical needs

Rainwater Harvesting

Gutter systems and storage tanks can be incorporated to collect rainwater for domestic, landscaping or cleaning use

Waste Management Solutions

Depending on the site, projects can include septic systems, biodigesters or other suitable wastewater management solutions.

Water Heating Options

Solar water heaters or energy-efficient electric systems can be installed depending on the client's needs.

Live anywhere. Build sustainably. Operate independently.
